

## Seasonal Eagle Tours

### Late October - January- NOTE this tour leaves from Harrison Mills (30 min east of Mission)

**A passenger favourite and our specialty-** The Fraser Valley has become a very popular place to visit each fall, thanks to in part to the large number of bald eagles that converge along the Harrison River. On December 2010 we counted **7,362** eagles from our boat in the 2 kilometers known as the Harrison/Chehalis Estuary.

This tour is designed to take guests into an area not accessible by car or by foot and our custom jet boat is not like any other. It offers amazing viewing and photo opportunities in a cozy warm, climate controlled environment.

Whether you're booking one seat or 20 we have a tour option for you. The River portion of the tours range from 60 minutes to one hour and 15 minutes and some include eagle biologist David Hancock as the guest speaker and a hot lunch at Kilby. The table below has gives an overview of tour and rates. Contact our booking office anytime for suggestions and help planning your adventure.
